SUBJECT: Charlestown Navy Yard
Demolition License, Building 39

The Authority has received a request from Navy Yard Plaza Development Associates to commence certain demolition with respect to Building 39 in the Charlestown Navy Yard.

On November 12, 1981 a Tentative Designation was granted by the Authority to the First Charlestown Development Group as redevelopers of Buildings 33, 34, 38, and 39. Subsequently, Navy Yard Plaza Development Associates has been approved as successor entity and granted Final Designation as redevelopers of Buildings 33 and 34. On July 12, 1984, the Authority approved and entered into a Management Agreement with the developer which called for a phased redevelopment of these four buildings and which further required the commencement of construction activity in Building 39 by July 1, 1986. The agreement also contained as an exhibit thereto a license from the Authority to the Developer allowing for the inspection and testing by the Developer and its agents of Building 39. The Developer observed all of the terms and conditions of the license in conducting its inspections and tests.

In order to advance the development of the improvements, as defined in the Management Agreement for Building 39, the Developer has requested that he be allowed to commence certain demolition work prior to the execution of the Leases to be entered into with the Authority. The developer now requests that the Authority license certain demolition activities to be performed prior to the approval of the contract documents, but that such work shall be at the sole risk and cost of the Developer. The license requires that before beginning any demolition on the site the Developer submit to the Authority a copy of the contracts between the Developer and the general contractors engaged in the work to be performed, a copy of the building permits issued by the Inspectional Services Department for the work to be performed, a copy of the payment and performance bonds and insurance certificates as required by the contract documents.

Furthermore, the plans for the demolition will be reviewed by the Authority's staff and the schedule for demolition will be closely tied to the schedule for the construction of the improvements to the property.

It is, therefore, recommended that the Authority approve and authorize the execution of the License Agreement by and between the Authority and the Developer for certain demolition work in Building 39.

An appropriate vote follows:

Voted: That the Director be, and hereby is, authorized to execute and deliver on behalf of the Authority a License Agreement by and between the Authority and Navy Yard Plaza Development Associates for certain demolition work in Building 39, in substantially the form attached hereto, including the requirement that the Developer commences paying the construction period rent as provided in the Management Agreement upon execution of said demolition license agreement, and further provided that the developer maintain proper insurance protection as required in the Management Agreement. .
